- Strokes
- Physical Disabilities
- Mental Health

Cleaning Service:

This service can be a gentle introduction to our care company. Giving loved ones the chance to gain confidence in us for when the time comes that more care may be required, the transition will be easier for you.

Testimonials:

"Tamworth Home Care have been looking after my Dad with a 24-7 round the clock care for over 18 months. The staff and management are professional in the care they provide and friendly and respectful in their approach. This has been a difficult time for our family and Tamworth Home Care have given us some much needed peace of mind by providing first class care for my Dad. Going into someone else's home and providing personal and domestic care is not an easy thing to do. To do that in a professional manner with a smile on your face, a passion for your work and a constant focus on taking care of the needs of the person your caring for and their family takes special qualities - qualities that thankfully this company have in abundance. I could not recommend them highly enough."

"I was allocated this care company When becoming wheelchair bound. Not only did they care for me and my needs but also assisted me with my young son. I had some very serious issues from the past which needed a sensitive approach and wow! Both staff and management handled this amazingly. Brilliant company with amazing, caring staff. Would definitely recommend to anyone."

"Fantastic service and team. So supportive to not just my Dad but the entire family in what was a very difficult situation for us all. I highly recommend Tamworth Home Care to anyone looking for a caring and considerate team for home care provision."

"I find this company very good and respectful. Staff are very good, help in anyway they can. They treat you with good manners, always ask if they can do anything for you to make things easier"
